Seçim edin

Software Engineer

□ Develop and maintain desktop based applications. □ Decreased deployment time by 95% through implementation of easy-to-understand scripting □ Upgrade and maintain existing systems to ensure that they meet evolving business needs. □ Write and implement efficient code to ensure that code is scalable, maintainable, and secure. □ Continuously improve software development processes by identifying areas for improvement.

01.2022 - 03.2022

logix

SQL Developer

□ Design, develop and maintain SQL scripts, stored procedures, and functions □ Monitor and optimize database performance, identifying and addressing potential bottlenecks or issues □ Manage database security, ensuring that data is protected and only accessible to authorized users.

Təhsil

2022

Ali təhsil

Azerbaijan State Oil and Industry University

Fakültə qeyd edilməyib / İnformasiya Texnologiyaları

2024

Magistr

Azerbaijan State Oil and Industry University

Fakültə qeyd edilməyib / Artificial Intelligence

Nailiyyətiniz və mükafatlarınız

2021

JUnit Mockito Jest

Əlavə informasiya

As a software engineer and system architecture enthusiast, I am passionate about designing and implementing efficient, scalable, and secure software systems. With a solid foundation in software engineering principles and experience working with a variety of programming languages and development frameworks.

My expertise extends beyond simply writing code. I have a deep understanding of the entire software development lifecycle, from requirements gathering and design to testing and deployment.

I am skilled at collaborating with cross-functional teams to ensure that all stakeholders' needs are met and that projects are completed on time and within budget.

In addition to my technical skills, I am a strong communicator and problem-solver. I enjoy working with others to understand their needs and requirements and am able to distill complex technical concepts into clear and concise language.

I am always looking for new challenges and opportunities to learn and grow as a software engineer and system architect.
