İş təcrübəsi

11.2023 - 07.2024

ZE-TRONICS Limited

BackEnd Software Developer

- Developed software solutions for automating industry processes, leading to a 20% increase in operational efficiency.
- Designed and implemented Java/Swing desktop applications tailored for SCADA functionality, improving system usability and customer satisfaction by 30%.
- Managed PostgreSQL databases, optimizing data handling and storage, which reduced data retrieval times by 25%.
- Actively verified and resolved issues within the SCADA applications, decreasing system downtime by 20%

01.2022 - 07.2022

Algorithmics Global

FrontEnd Mentor

- Helped to debug codes written by students and supervised students' graduation projects that created websites and applications using JavaScript, ReactJS, NodeJS, and API technologies, resulting in a 40% improvement in project completion rates.
- Shared personal experiences and insights, which enhanced learning outcomes by 25%.
- Mentored individuals across various levels of experience, providing guidance and support that boosted their professional development by 30%

09.2019 - 04.2022

Novel Ltd

Mid-Senior Avtomatika Mühəndisi

- Developing technical solutions to resolve a complex range of problems.
- Executed comprehensive risk analysis, simulating diverse I/O signal scenarios; optimized system performance, which cut failure rates by 25%.
- Updated and maintained project documentation for detailed record-keeping.
- Assessed equipment and material needs, sourcing cost-effective, timely solutions.
- Completed automation of functional and regression testing.
- Developed robust technical solutions for improved auto

10.2015 - 04.2019

Sentra QSC

Avtomatika mühəndisi

- Programming of PLC controllers (Allen Bradley, Siemens S7-1200, Det-Tronics EQ3001) based on a given algorithm. Assign algorithm for Process Automation.
- Troubleshooting the Fire & Gas detection systems, Emergency Shutdown (ESD) Systems, building control panel cabinet based on given design.

Təhsil

2024

Magistr
University of Glasgow
Fakültə qeyd edilməyib / Komputer elmləri

Master of Computing Science: Software Development University of Glasgow - Glasgow, GLG - Merit 09/2023 - 08/2024 • ADVANCED PROGRAMMING: program design using an object-oriented programming model; modelling data using programming language type systems; event and exception programming; thread programming; persistence; and distributed programming. • ALGORITHMS AND DATA STRUCTURES: concept of algorithms, and how to analyse their efficiency; study the data structures most commonly used to re

2024

Kurslar
Central China Normal University - Wuhan
İnformatika və Kompüter Elmləri / Artificial Intelligence in Education
