2024

Ali təhsil

Azərbaycan Dövlət Neft və Sənaye Universiteti

Fakültə qeyd edilməyib / İnformasiya Təhlükəsizliyi

Sabah qrupları ingilis dilində tədris

Xüsusi biliklər

Dil bilikləri

Azərbaycan — C2 — Səlis

İngilis — C1 — Yaxşı

Rus — C1 — Yaxşı

Biliklərim

PHP C++ Python C# JavaScript MS Sql Linux

Əlavə informasiya

During the early semesters of university, I focused on backend development with C# and completed several freelance projects. One notable project involved creating a customer support live chat application with multimedia functionality, including audio, video, and image sharing. In the later semesters, I shifted my focus to game development, learning Unity and joining Darts Games as a game developer. At Darts Games, I contributed to the development of Lunar Ascendant, gaining valuable experience in game design and programming. Also got prior knowledge in cyber security thanks to university. Practiced in Tryhackme, Vulnhub and different blog sites and learned attack vectors and how to defend them. Requested freelance projects while in university in different languages like python (data analyser, top-down shooter game), c++ (music platform). Tried every aspect of .NET: Desktop, Mobile, Web, AI, Gaming, and Cloud development. Proficient with different languages and constantly developing skills. Worked in Timesoft as helpdesk intern. Recovered admin password for Hikvision ip camera, configured ip telephony in asterisk and 3cx, configured AD, DNS, DHCP, WDS servers.
