Data Analyst with hands-on experience in data cleaning, manipulation, importing, reporting, and

dashboard creation. I am skilled in transforming raw data into accurate, structured, and meaningful

insights using Excel, SQL, Power BI and Python (Pandas, NumPy, Polars, Matplotlib). Experienced in

analyzing datasets, building automated workflows, and supporting business decision-making through

clear, insight-driven reporting.

Worked on multiple real-world data analytics projects, including an end-to-end Coffee Shop Sales

Analysis & Forecasting project, Retail & E-Commerce Sales Analysis (Power BI dashboard), ROI Analysis,

and HR Analytics. Experienced in data preprocessing, KPI tracking, performance measurement, and

creating interactive dashboards. Skilled at improving data quality and presenting insights in a clear,

actionable manner.

Naturally curious, detail-oriented, and always looking for ways to optimize and improve processes. Ready

to contribute to meaningful projects within a supportive team and grow further as a data professional. If

you're looking for a motivated data analyst who's ready to jump in, I'd love to connect.
