Əlavə informasiya

I'm skilled & experienced in leading medium to small size projects; start-up of a new business processes implementation or existing processes improvement.

I offer over 10 years' experience in budgeting forecast and strategic planning field from bp as multinational global corporation. In my previous roles I was dealing with a long 8Q & short term 6M budgeting, long term business planning, performance management (including KPIs, process improvements, budget vs. actuals variance analysis), month-end and Q-end accounting (accruals, system reconciliations) for \$300m annual team spend. In my previous role as Cost Engineer, Budget and Long Term Planning in British Petroleum I have successfully delivered 5 annual cycles of in-year forecasting and 4-year budget plans for over \$700m BP CAPEX and Management and Supply Base OPEX.

I have passion for developing myself and other people. I able to work in autonomy status and build contingency plans into daily work to deal with unforeseen circumstances in order to minimize potential problems. I'm consistent in my efforts to reduce repetitive work in responsible area through digitization, coding, and other efficiency efforts.

I successfully delivered every challenge offered to me during past years by significant cost saving and time, simplify process, getting cross functional exposure and knowledge, motivating stakeholders, making positive impact in outcomes as well as the people around me.

The attached resume is provided for your review where during my last 17 years career in BP I was in roles of IMS Specialist, Performance Analyst, Planner, Finance & Budget Analyst, Sr. Cost Engineer in Drilling and Global Projects Departments. The most recent role is Subsurface & Wells Information Management Specialist as IM Azerbaijan regional tag.

I look forward to speaking with you further regarding an opportunity to be part of your team.

Appreciate your attention

Kamilla Maharramly
