Əlavə informasiya

TECHNİCAL SKILLS

Network Configuration and Management:

- Proficient in configuring and managing Cisco and Juniper devices.
- Ensured optimal network performance through effective management.

Network Security:

- Configured firewall settings, VPNs, and implemented essential security protocols.

Troubleshooting and Monitoring:

- Identified and resolved network issues promptly.
- Skilled in using SNMP and Wireshark for proactive monitoring.

Communication and Documentation:

- Excelled in communication with a collaborative approach.
- Maintained thorough documentation of network configurations and changes.

Project Management:

- Successfully contributed to various network projects, demonstrating effective project management and problem-solving skills.

CCNA SKILLS

Network Configuration, Security, and Management:

- Proven expertise in implementing redundancy using STP and EtherChannel.
- Adept at troubleshooting complex EtherChannel issues.
- Configured robust switch security to mitigate LAN attacks.
- Familiar with routing protocols: Static Routes, RIP, EIGRP, OSPF.
- Proficient in VLAN configuration, RSTP, PVSTP, HSRP, FHRP.
- Experienced in IPsec, GRE, Layer 2 EtherChannel, and Layer 3 EtherChannel.
- Knowledgeable in PAT, Static NAT, Dynamic NAT configuration, and Port Security.

Security and Threat Mitigation:

- Demonstrated ability to enhance network security through access control lists.
- Implemented standard IPv4 ACLs to filter traffic and secure administrative access.
- Skilled in configuring NAT services on the edge router for IPv4 address scalability.

Network Management and Technologies:

- Successfully implemented protocols for effective network management.
- In-depth understanding of how technologies like virtualization, software-defined networking, and automation impact evolving networks.
