Əlavə informasiya

WHY ME?

I have extensive experience in relevant areas and successfully completed projects. I am currently responsible for the main key performance indicators for HSE & AUDIT areas. I am a self-taught team player

who can adapt very quickly to any working environment. I am also a person with high organizational skills, possessing strong focus on optimization performance

I have fourteen years of experience in HSE. I have been an HSE and Audit Expert at Caspian Innovation Center Limited Liability Company for 3 years, and in previous years I was a member of SOCAR's Information Technology and Communications Department (a joint venture of SOCAR IBM). These areas require strong company thinking, high attention to detail, detailed company policies and standard procedures. While on time, I planned and performed various internal and external work. I have reviewed the international standards ISO-45001 (OHSAS-18001), ISO-9001 and ISO-27001 and have been part of many change management initiatives. Currently, I work in various fields such as quality, safety, environmental engineer, chief engineer, specialist. These experiences helped me develop strong HSE management and planning skills. I manage many key performance indicators for the HSE area. I am extremely organized with a strong focus on optimized performance. I excel in human relations and I have a humane approach to management. It is a pleasure to reveal the best in people and in myself. I have very strong analytical planning skills. I like to talk about data! I am very talented with Microsoft office suites and various other active management systems.
