### Təhsil

2021	Ali təhsil <b>Azərbaycan Dövlət Neft və Sənaye Universiteti (ADNSU)</b> Fakültə qeyd edilməyib / Industrial Engineering
2022	Kurslar <b>Data Science Academy</b> Fakültə qeyd edilməyib / Data Analyst

### Xüsusi biliklər

Dil bilikləri	Azərbaycan — C2 — Səlis İngilis — C1 — Yaxşı Türk — B2 — Orta inkişaf etmiş
Biliklərim	Python Tableau R Oracle SQL SPSS

### Əlavə informasiya

My name is Emil Jabizada, and I'm a tech-savvy university graduate looking to flex my talents to identify new growth strategies for a company as a Data Analyst. I have been graduated from university as an "industrial engineer" which helped me to get knowledge in Finance, Statistics. During my university years, I had to multitask to balance the needs of the university and to be ready to answer.

Your job posting mentioned that you're looking for a data analyst with experience in R, Python, SQL, Tableau. I've always been fascinated by numbers and working in data analytics has been a long-term goal of mine. That is why after my graduation, I decided to learn about data science and enrolled six months of course at Data Science Academy. Now I have knowledge of those programming languages. I believe this experience has prepared me for a Data Analyst role. Over the past year, I've been able to achieve the following:

Completed multiple case studies using real life data to be able to get predictions.

Completed the Course Professional Certificate, which included extensive coursework in both Python and R.

I'm thrilled at the opportunity to use these experiences to fuel data-driven decisions at your company, and I'm keen to continue developing my skill set on the job. I am available for a Zoom call or in-person meetings.
